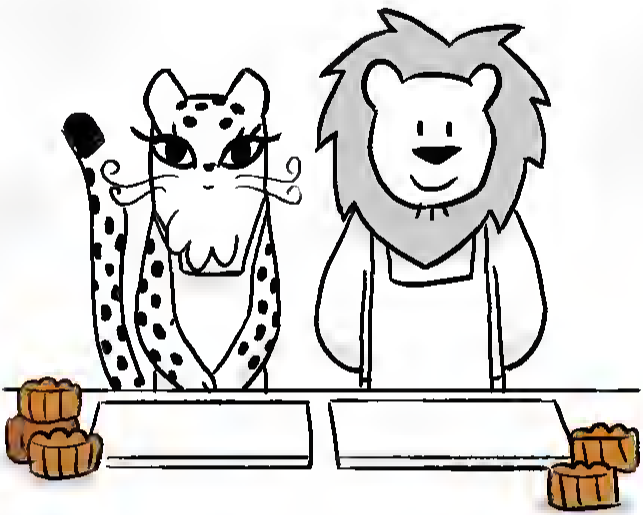
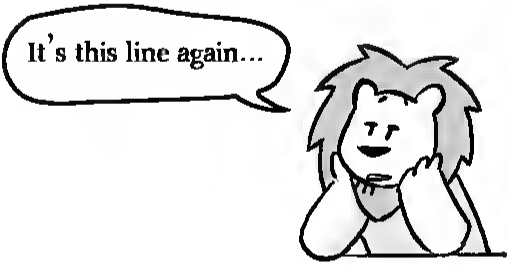
Slice Of Life: Mooncake Makeover

MOONCAKE MAKEOVER



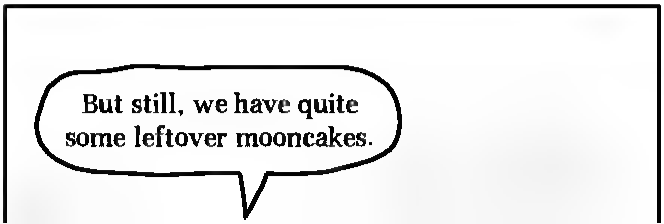
It's the time of the year again...



...to manage the festival food leftovers.

Thanks to Horsie's idea to raise awareness,
we successfully reduced extra mooncakes and waste neon sticks this year!
I just got inspired by Po!

And also thanks to Foxy who posted notices all around the RSJ building.
It's nothing!

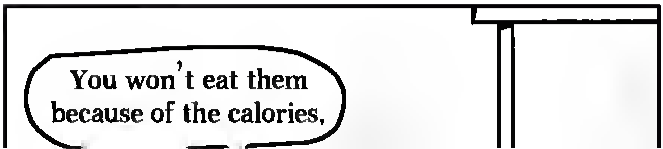


But still, we have quite some leftover mooncakes.

Well then, they are all yours, Mr. Pigkles!
Your family cleared all our handmade mooncakes last year!

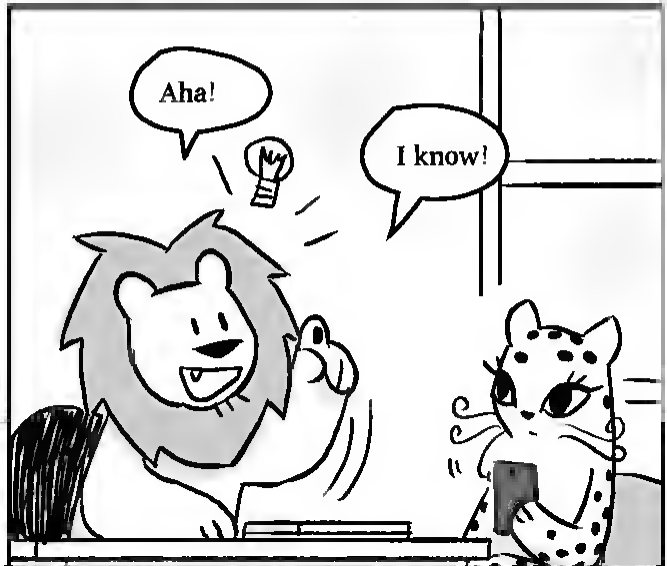
I'm not taking any mooncakes this year...
My family have set a new year's resolution of eating healthy!
And I'm gonna keep our promise!

Oh.
Um... so what can we do with them?

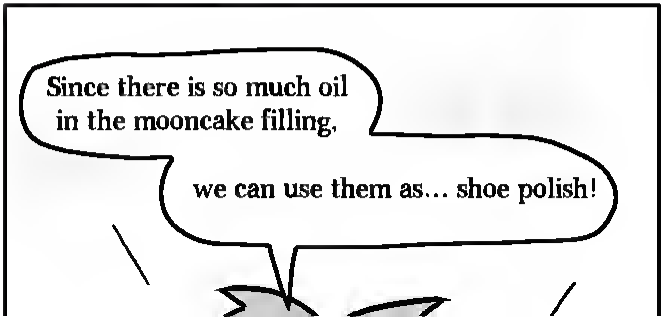


You won't eat them
because of the calories,

and you won't allow me to eat them because of the calories...
TAP
TAP
...are there other ways to use mooncakes instead of eating them?



Aha!
I know!

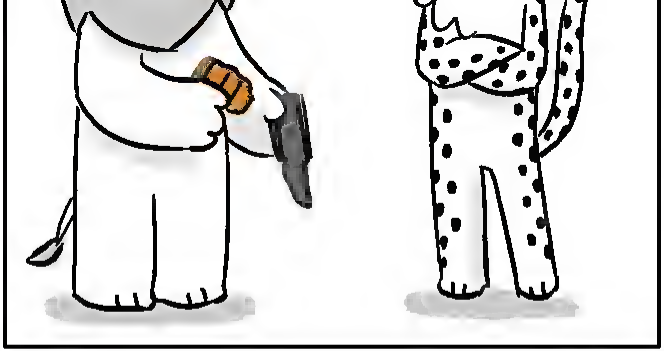


Since there is so much oil in the mooncake filling,
we can use them as... shoe polish!

Scrub
scrub
scrub

Tada!
Look, so shiny!
Are you an idiot? We don't even wear shoes.

Well, we can polish the floor?
And the whole RSJ building smells like a bakery?
sigh



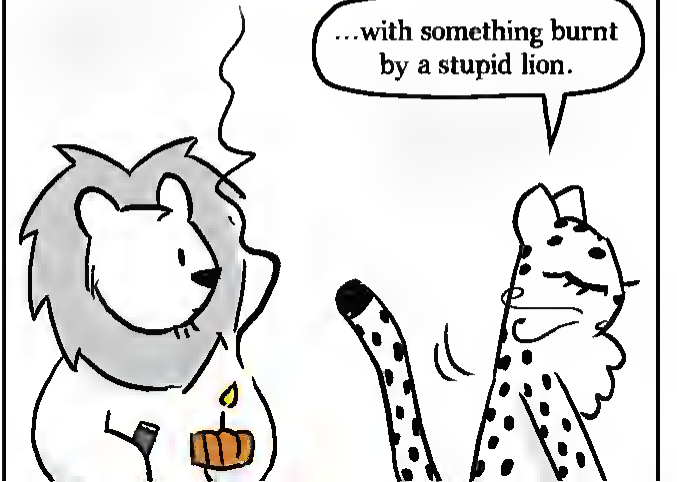
Um... I got it!
We can use mooncakes as candles!

Look, it can burn like a candle!
Great, now the whole building really smells

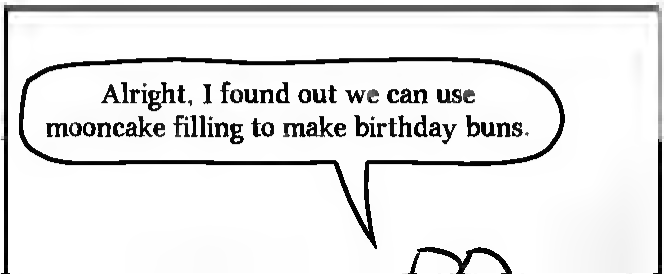
like a bakery...

I'm gonna name it mooncandle -

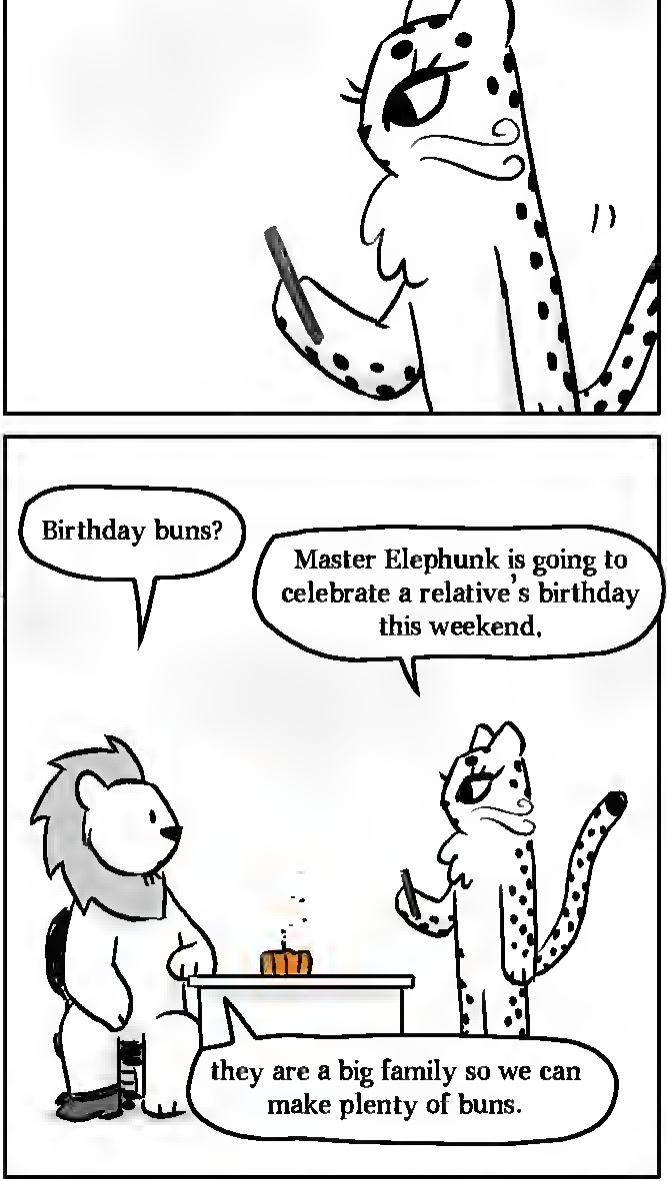
...with something burnt by a stupid lion.



. . . . . .



Alright, I found out we can use mooncake filling to make birthday buns.



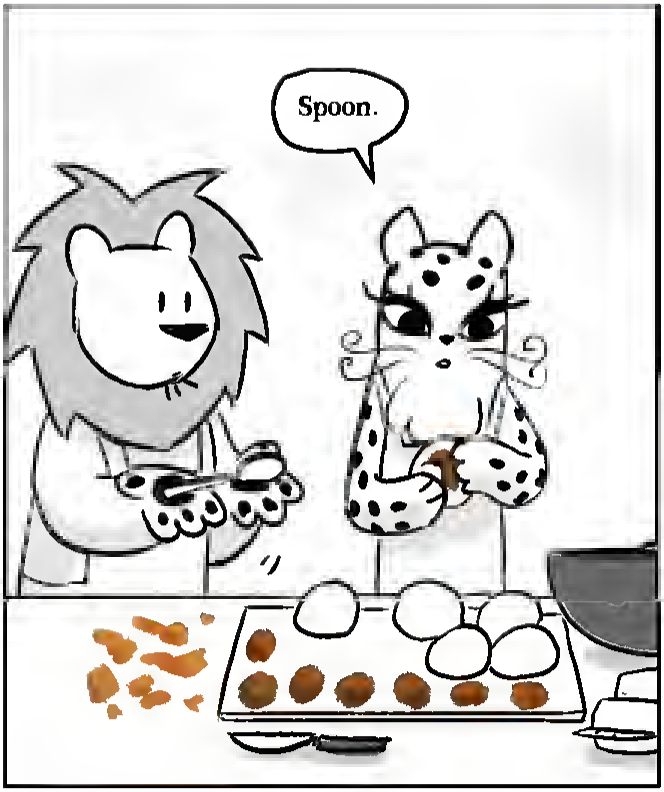
Birthday buns?
Master Elephunk is going to celebrate a relative's birthday this weekend.
they are a big family so we can make plenty of buns.

Let's get started.
...alright,
if you say so...

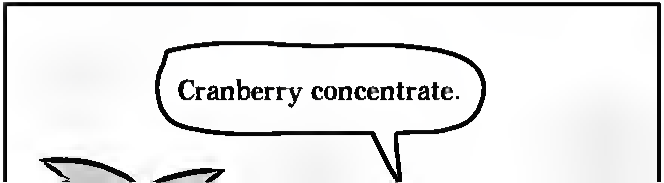
What am I supposed to do?
Just stand aside and hand me the utencils.
Saves me trouble for cleaning up after you.

Okay...
the mooncakes.

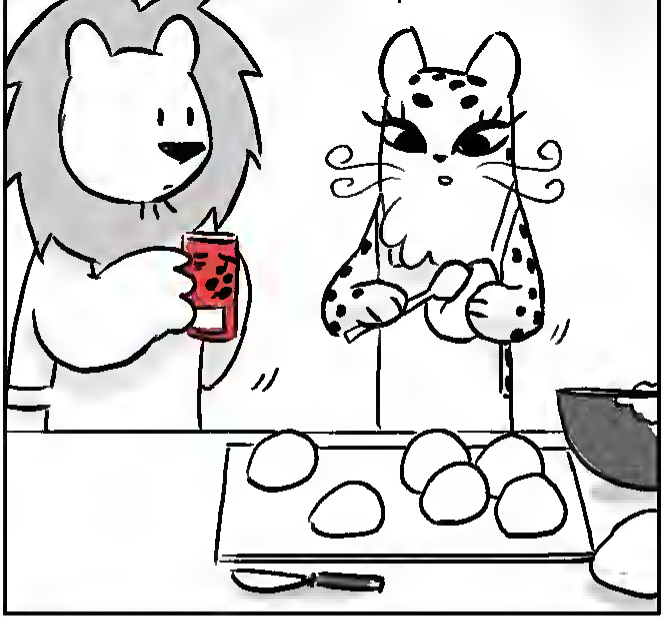
Water.



Spoon.

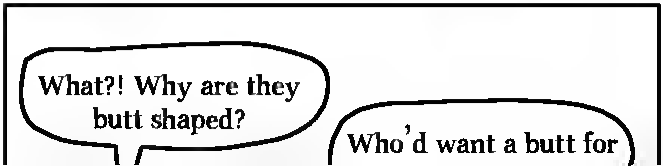


Cranberry concentrate.



I've never heard of birthday buns.
They are also known as longetivity buns.

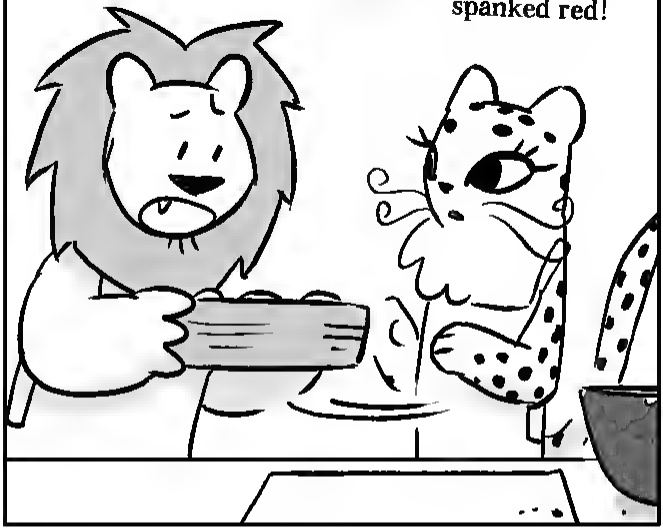
Alright, ready to steam.



What?! Why are they butt shaped?
Who'd want a butt for

their birthday?

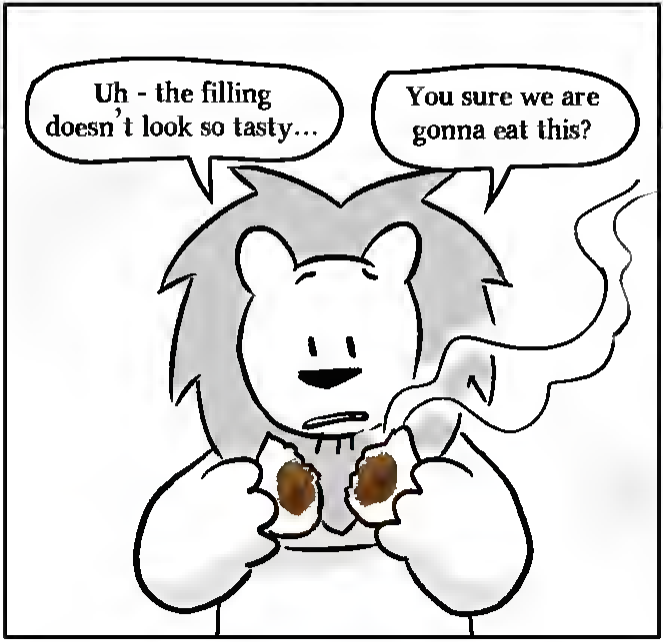
And they are even spanked red!



That's the shape of a peach, not butts, idiot.

Peach is a symbol for longetivity.

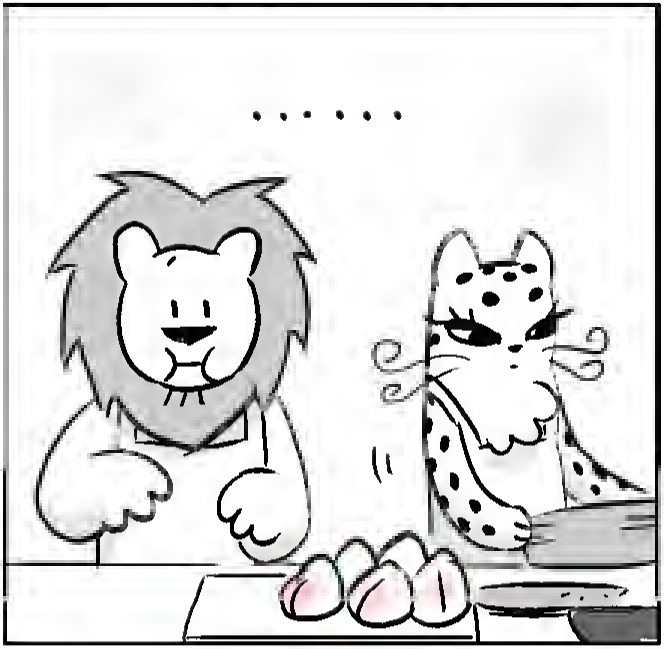
Hot, soft and squishy steaming butt bun...

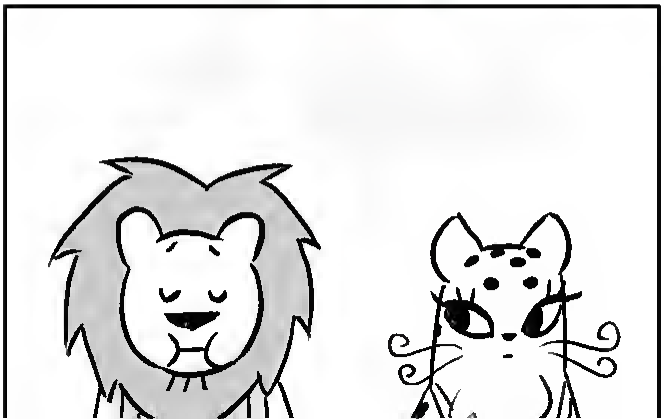


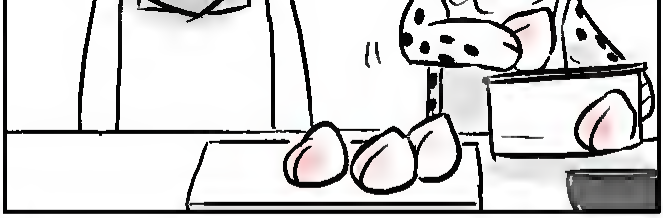
Uh - the filling doesn't look so tasty...
You sure we are gonna eat this?

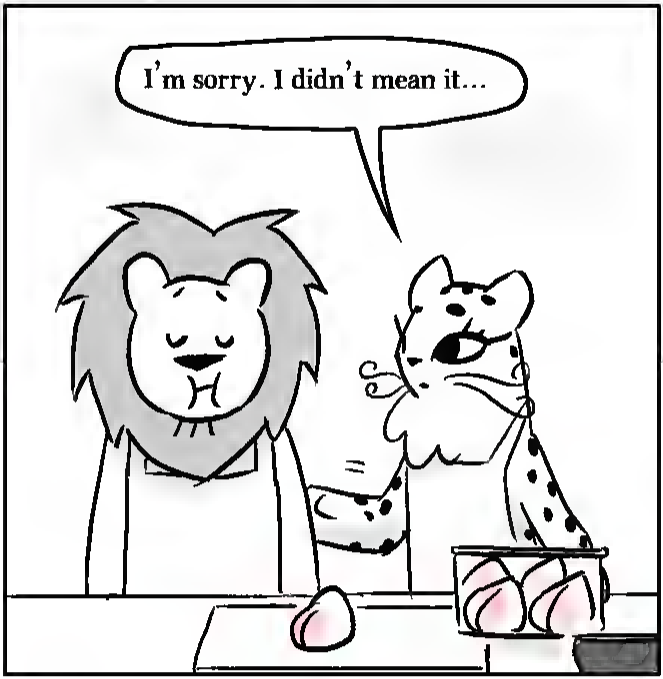
It really looks like what comes out from the butt-

Shut up for a while, will you?

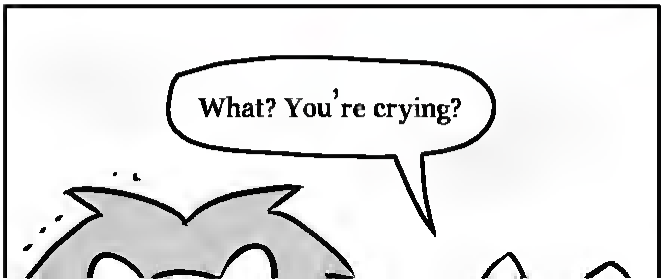








I'm sorry. I didn't mean it...



What? You're crying?

Itsh... sho... delishsos!
(It's so delicious!)

Same some for me!
Don't give them all

to Elephunk!

Nope.
